

Ready to Use All Year Long

55 step-by-step directed drawing activities for students in Grades K-2 (ages 5-8). No extra prep needed. Simply choose a page, print, and go.

The collection includes animals, fantasy and fairy-tale characters, food, familiar everyday objects, and other kid-friendly themes, giving you plenty of variety to keep students engaged.

How Each Activity Works

1. Follow the Steps: Students see how a drawing is built step by step using simple lines and shapes.
2. Trace: Students trace the completed drawing, reinforcing hand movements and building confidence before drawing independently.
3. Draw & Color: Students recreate the drawing on their own and then color it.
4. Trace & Write: Students trace and independently write the Spanish word, reinforcing vocabulary and handwriting.

For Early Finishers

Small themed illustrations and lettering on each page can also be colored. Students can also use the extra space around their finished drawing to add their own details and create a scene: trees, grass, rocks, the sun, clouds, or anything they imagine.

This gives early finishers a meaningful way to keep creating and working independently at their own pace.
